First 5 Little Library: The Little Library Initiative aims to develop a consistent link between early learning and care service and their local library to encourage a love of books and reading among young children. The project is a collaboration between the Department of Children, Equality, Disability, Integration and Youth (DCEDIY), the Department of Rural and Community Development (DRCD) and the Local Government Management Agency (LGMA). All early learning & care settings who have not yet received a First5 Little Library book bag are encouraged to head to your **local library** to collect it. For further details [CLICK HERE](#)

Sammy Found a Treasure – Bereavement resources for children: Sammy Found a Treasure is a children's book about bereavement and the power of love, written by Laura and Teresa Menéndez, and illustrated by Maru Guerrico. The book was born from an experience of grief in their family and seeks to accompany children who have experienced the death of someone they love, but also aims to be a tool to enrich the emotional world of all children in relation to a topic that is usually taboo, until it passes close to home. It tells the story of a young boy, Sammy, whose mum has died but left a very special present for him, which will help him in the process of healing his heart. Before she died, she gathered all her strength and wrote her name in Sammy's heart. She loved him so much that her love became imprinted in him forever. This present will accompany him always and is so valuable that Sammy wants to share it with other children that, like him, have also lost a beloved one.

The Sammy Found a Treasure website contains information on child bereavement, reading guides, activities, and resources as well as a free reading of the book which can be accessed [HERE](#)
